2022-2025

**APPLICATION MUST BE SUBMITTED VIA THE VETERINARY INTERNSHIP AND RESIDENCY MATCHING PROGRAM
BEFORE JANUARY 10, 2022 9:00 P.M EST**

POSITION: ZOOLOGICAL MEDICINE

NUMBER OF POSITIONS AVAILABLE: 1

DESCRIPTION:

This residency is a 3-year (36 months), full time, graduate program of 108 credits obtained mostly from clinical training. A specialized study diploma (D.E.S.) is awarded on completion of the program. The intensive clinical training is concentrated in the field of zoological medicine. This program meets the requirements of the American College of Zoological Medicine. Essentially, the resident will participate in the activities of the Zoological Medicine Service (Exotic Animal Clinic and Bird of Prey Clinic), the Granby Zoo and the Centre québécois sur la santé des animaux sauvages de la Faculté de médecine vétérinaire (CQSAS). The Zoological Medicine Service provide veterinary service for the Aquarium du Québec. Approximately 30% of the program will be dedicated to clinical activities in zoological institutions. The resident is required to complete a research project in the field of zoological medicine. Residents are eligible for 3 weeks holiday per year which will be determined by the program director and the clinical service to which the student is attached according to the needs of the service. If the resident is not on emergency duty, they are also eligible for the standard set of statutory holidays during the year. Any veterinary medical activity performed outside the residency program must be declared to the student's program director and to the associate dean for clinical training and continuing education. A master's program may be offered after satisfactory completion of the first year.
